

Shapes

Color the shapes in geometry. Complete coloring the shapes colorfully according to the mentioned color. This activity develops an understanding and learning the different types of shapes in geometry.

Kids can learn from here how to draw shapes like square, rectangle, triangle and circle.

These math coloring worksheets on shapes motivate the kids to learn geometry. Math-Only-Math is based on the premise that children do not make a distinction between play and work and learn best when learning becomes play and play becomes learning.

Count and color the shapes:

Circle

Triangle

Square

Rectangle
